A young woman with dark skin and curly hair is sitting on a light-colored sofa, wearing large, orange headphones and a blue long-sleeved shirt. She is looking down at a silver laptop on her lap. The background shows a modern interior with orange couches, large green plants, and a large black cross on the wall. The overall atmosphere is bright and contemporary.

in modern  
learning

## The University of Lancashire provides the perfect environment for you to explore, experience, discover and develop.

We're a modern university with nearly 200 years of experience. Officially, our University was established in 1992, but we can actually trace our roots all the way back to 1828, when our predecessor, the Institution for the Diffusion of Knowledge, opened in Preston.

Since then, we've changed our name several times. We've expanded and evolved, creating state-of-the-art campuses to meet the demands of the modern world. And we've become a truly international university which prepares students for global career opportunities. One thing has stayed the same over the past (nearly) 200 years. We're still providing our students with incredible opportunities which enable them to build a successful future for themselves.

We're proud of our 'Lancashire spirit' and the first thing you'll notice is how friendly and approachable everyone is here. Wherever you're from, you'll soon feel like you belong here.

### **Life-changing opportunities**

The incredible opportunities we offer here will take your life in exciting new directions. Have you ever dreamed of starting your own business? Travelling the world? Learning a new language? You can do all that and much, much more when you study with us.

### **It's time to start your success story.**

## We'll help you gain the skills that top employers are looking for.

We don't just teach you the theory here – while you can expect to attend some 'traditional' teaching sessions in classrooms, lecture theatres and labs, there's so much more on offer.

We emphasise 'real world' learning experiences where you'll build your skills by working in state-of-the-art facilities which simulate the environments you'll encounter in your professional life.

Our courses give you the skills that industry-leading employers want. And our lecturers are experts in their fields. So you can be confident that you'll graduate with cutting-edge skills that will make you highly employable.

Along the way you'll have countless opportunities to gain vital work experience. Our students get to go on placements with top companies, attend masterclasses and networking events with successful professionals, or even spend a full year in industry, either in the UK or abroad.

Together with the Students' Union, we offer more than 40 student-led sports clubs for you to get involved in.

If you're a serious competitor, you can join a team participating in British Universities and Colleges Sport (BUCS) or other competitions. You don't need to be an expert in your chosen sport – all clubs accept and cater for beginners.

If you'd prefer something less formal, with the emphasis on having fun and socialising, you can play a range of sports such as football, netball and badminton in one of the Students' Union Leagues (SUL). We're a member of the BUCS Universal Gym scheme, which allows you to use the sports facilities at over 80 other universities when you're travelling around the country.

# A warm welcome awaits

During your first few days in the UK you'll spend your time settling into university life, getting to know our campus, meeting lots of new friends and getting ready to start your course. It's always an exciting time but we appreciate you may feel slightly nervous, which is why we organise a series of events and offer a range of services to help make you feel at home.

## When you arrive

Students arriving at Manchester Airport (the closest airport to Preston Campus) are eligible to use our **free** Airport Transfer service\*. One of our friendly Student Ambassadors will meet you on arrival and we'll organise transport to take you straight to campus, making your first few hours in the UK as enjoyable and stress-free as possible.

\*Please note this service is available on select days.

## Welcome activities

Each year, we organise an extensive schedule of activities for new students as part of our Welcome programme, which lasts for around two weeks before your course start date. The University,

in conjunction with the Students' Union, put together a series of social activities which give you the perfect opportunity to meet other new students, find your way around, complete your enrolment and say hello to your tutors. There's always a real buzz on campus during our Welcome events. In previous years students have enjoyed everything from film screenings to pizza parties, barbecues, games nights, live entertainment and a whole lot more. There will also be scheduled sessions organised by your course leaders which will prepare you for the start of your studies.

Our friendly teams can also help you open a UK bank account, register with an NHS GP and obtain important documents such as Council Tax exemption forms.

## You'll soon feel right at home

If you live in our student accommodation then our Resident Life Teams will be available to welcome you when you arrive. They organise lots of social activities during the Welcome period and all year round to give you opportunities to meet other students living in your hall of residence.

# Connect with our student community

When you join us you'll be welcomed into a friendly, supportive student community where you'll quickly feel at home and enjoy opportunities to make friends from all over the world.

## Before you arrive

You can start to connect with other students and make new friends even before you arrive at University...

### Pre-arrival events

We organise a series of online pre-arrival events which will give you the opportunity to chat with other international and UK students who are about to begin their university journey. Soon after you've applied to join us, we'll get in touch to let you know when these events are coming up.

### Ask our Students

Who better to answer your questions than the students living the experience?

Wondering where to find the best coffee on campus? What it's really like to study through a UK winter? Whether your jacket from home will be warm enough? Just ask!

We run live student panels throughout the year—your chance to get honest answers from current students.
